

# “Hey guys, wait for me!”

These five words would be perfectly ordinary at most summer camps. But at Camp Kindred, this small interaction was nearly miraculous and perfectly revealing. Our kids finally feel that they belong and build their social skills, almost without trying, when they take these ordinary small steps to stay connected.

A three week therapeutic day camp for children between the ages of 9 and 16 diagnosed with Asperger's disorder, high functioning autism, or non-verbal learning disorder.

**Session 1:** July 6 - July 23 for ages 9-12 • **Session 2:** July 26 - August 13 for ages 13-16

A therapeutic day camp for children with Asperger's disorder, high functioning autism, or non-verbal learning disorder.

# CAMP KINDRED ● THE SMALL MIRACLE OF JUST BELONGING

## **Session 1**

July 6 - July 23  
Ages 9-12

## **Session 2**

July 26 - August 13  
Ages 13-16

At Camp Kindred, kids feel that they belong. They just fit in. Our campers discover that they are among friends and grow connected. And once this small miracle of just belonging occurs, campers build their social skills, almost without trying, when they take the ordinary small steps to stay connected.

## **C A M P K I N D R E D**

Camp Kindred is a three week therapeutic day camp for children between the ages of 9 and 16 diagnosed with Asperger's disorder, high functioning autism, or non-verbal learning disorder. Campers will enjoy a wide variety of cooperative games, social skill and team building activities, as well as more traditional camp fare such as non-competitive sports, swimming, boating, hiking, ropes course, music, creative arts, and drama. Our goal is for campers to work together, flexibly and creatively, and to appreciate each other's unique perspective. The camp is small, with a very low camper to staff ratio, so each camper has ample social coaching and support. Camp Kindred will be located on the grounds of Camp Davis in Charlestown, RI.
